JOHN CARLO V. BARTOLOME

Tarlac City, Philippines | +639770369172 | johncarlobartolome02@gmail.com

PROFESSIONAL SUMMARY

Web/Software Developer with over a year of professional experience building and maintaining PHP/MySQL web applications, database-driven systems, and client-facing websites. Proficient in Laravel, CakePHP, and MVC architecture, with hands-on use of AI tools for coding and debugging. Developed a production payroll/HRIS platform, maintained government and business websites, and built BIR compliance tools. Currently seeking remote web development opportunities with international teams.

TECHNICAL SKILLS

Web Development: PHP, HTML, CSS, JavaScript
Frameworks: Laravel, CakePHP, MVC
AI-Assisted Development: Claude AI, ChatGPT
Design: Adobe Photoshop, Canva
Database: MySQL, phpMyAdmin
Programming: Java, Python
Software Maintenance: Debugging, Troubleshooting
Productivity: Microsoft Excel, Data management

WORK EXPERIENCE

Web/Software Developer August 2025 – September 2026
IManila

- Developed, maintained, and improved client websites and web-based systems using PHP, MySQL, and CakePHP/MVC.
- Maintained and troubleshot a database-driven HRIS — resolved CRUD operation issues, user management bugs, and database-related problems.
- Used Claude AI and ChatGPT to support coding, debugging, and investigating technical problems.
- Independently handled varied web development, IT support, and system-maintenance responsibilities.

Technologies: PHP, MySQL, phpMyAdmin, CakePHP, MVC, HTML, CSS, Claude AI, ChatGPT

E-commerce Virtual Assistant June 2022 – December 2024
Trendysavers

- Managed and updated eBay product listings; created optimized titles, descriptions, and product images using Adobe Photoshop.
- Maintained accurate records and organized product information for jewelry and photobook inventory.

Technologies: eBay, Valigara, Adobe Photoshop

IT Intern 486 hours
Provincial Governor's Office, deployed at Tarlac Provincial Hospital

- Supported administrative operations through data entry, document management, and digital records maintenance using Microsoft Excel.

Technologies: Microsoft Excel, internal systems, digital records management

PROJECTS

Insight Payroll insightpayroll.com.ph

- Built a web-based payroll and HRIS platform handling BIR TRAIN-law tax computation, SSS/PhilHealth/Pag-IBIG remittances, biometric attendance, leave and overtime management, and employee self-service.
- Handled the complete lifecycle from requirements gathering and database design through development, testing, deployment, and ongoing maintenance.

Technologies: Laravel, PHP, MySQL, HTML, CSS, JavaScript

City of Batac batac.gov.ph

- Developed and maintained the official website of the City Government of Batac, Ilocos Norte, featuring a city profile, government directory, calendar of activities, and downloadable forms.

JPG Accounting jpgac.com

- Built and maintained a company website for a tax and accounting firm, with service pages, team profiles, inquiry forms, and online appointment booking.

BIR Converter birconverter.com

- Developed a web tool that converts Excel spreadsheets to BIR-compliant DAT files for RELIEF and Alphalist Data Entry esubmission, eliminating manual data entry.
